According to the U.S. Travel Association, more than \$770 billion is generated annually in direct expenditures by domestic and international travelers. A recent study shows that direct spending in the state is at \$17.7 billion annually, according to the Arizona Office of Tourism.

Locally and nationally, Glendale and the West Valley welcome millions of tourists each year, and for National Tourism Week, residents and visitors are encouraged to stop by the Glendale Visitor Center to learn how to plan the ultimate “staycation” and learn more about these seven wonders of the West Valley.

The U.S. Travel Association also notes that direct travel expenditures produce \$117 billion in tax revenue for local, state and federal governments. Without the tax revenue generated by the travel and tourism industry, each U.S. household would pay \$988 more in taxes.
